Subject: Safety Works Australia Workshop

Hi Jim,

Thank you for the opportunity to participate in the training course yesterday. It was fabulous and the methodology can be applied in all facets of life not just WHS. The journey towards 'Discretionary Effort' and relationship between PIC, NIC in the path to Competence in Safety is common sense, however often underestimated,

I would have no hesitation in recommending this course to anyone not only in terms WHS but as a valuable leadership and management workshop.

Kind regards

Therese
